To The Properties of Wright Field,

We wanted to thank you for all of the assistance and help you have given us on our 4 year tour here with making our home more accessable. Little changes can be huge for someone who has a disability and big changes are even more appreciated.

Being confined to a wheelchair can really prohibit a person from a lot of normal daily activities that everyone else takes for granted. With replacing the tub with a walk in shower in our home it has made it much easier for my husband or anyone else to assist me when he wasn't available. Therefore, it has improved my quality of life to be able to start everyday fresh and clean giving me a positive outlook towards whatever that day may bring.

With this type of change it doesn't affect anyone else using the shower. It's good for everyone and if something does happen to someone they already have a home which can accomadate them right away.

Thanks again for all of your help.
